2026 Formulary (List of Covered Drugs or "Drug List")

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT SOME OF THE DRUGS COVERED BY THIS PLAN

Formulary ID Number: 26023, v6

This formulary was updated on 08/25/2025. For more recent information or to price a medication, you can visit us on the Web at **express-scripts.com**. Or you can contact **Express Scripts Medicare®** (PDP) Customer Service at the numbers located on the back of your member ID card. Customer Service is available 24 hours a day, 7 days a week.

Note to current members: This formulary has changed since last year. Please review this document to understand your plan's drug coverage.

When this drug list (formulary) refers to "we," "us" or "our," it means *Medco Containment Life Insurance Company* or *Medco Containment Insurance Company of New York (for employer plans domiciled in New York).* When it refers to "plan" or "our plan," it means *Express Scripts Medicare.*

This document includes the list of the covered drugs (formulary) for our plan, which is current as of August 25, 2025. For more recent information, please contact us. Our contact information, along with the date we last updated the formulary, appears above and on the back cover.

You must use network pharmacies to fill your prescriptions to get the most from your benefit. Benefits, premium and/or copayments/coinsurance may change on January 1, 2027. The formulary and/or pharmacy network may change at any time. You will receive notice when necessary.

What is the Express Scripts Medicare formulary?

The list of drugs covered by the plan is also known as the "formulary." It contains a list of highly utilized Medicare Part D drugs selected by Express Scripts Medicare in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. The formulary also includes information on requirements or limits for some covered drugs that are part of Express Scripts Medicare's standard formulary rules. **Your specific plan may provide coverage of additional drugs that are not listed in this formulary, and your plan may have different plan rules and coverage.** For more information on your plan's specific drug coverage, please review your other plan materials, visit us on the Web at **express-scripts.com** or contact Customer Service.

Express Scripts Medicare will generally cover a drug as long as the drug is medically necessary, the prescription is filled at an Express Scripts Medicare network pharmacy and other plan rules are followed. For more information on how to fill your prescriptions, please review your other plan materials.

Can my drug coverage change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted to our website at **express-scripts.com**.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand-name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand-name drug or original biological product on our formulary but immediately move it to a different cost-sharing tier or add new restrictions.

  We can make these immediate changes only if we are adding a new generic version of a brand-name drug or adding certain new biosimilar versions of an original biological product that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

  If you are currently taking the brand-name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

  If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled "How do I request an exception to the formulary?"

This drug list was updated in August 2025.

Some of these drug types may be new to you. For more information, see the section below titled "What are original biological products and how are they related to biosimilars?"

- **Drugs removed from the market.** If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand-name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand-name drug or original biological product or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a one-month supply of the drug and notice of the change.

    - If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled "How do I request an exception to the formulary?"

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2026 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2026 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of 08/25/2025. To get current information about the drugs covered by our plan, please contact us. Our contact information appears on the front and back covers.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category "Cardiovascular, Hypertension/Lipids."

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 137. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage

This drug list was updated in August 2025.

information. Turn to the page listed in the Index and find the name of your drug in the "Drug Name" column of the list.

What are generic drugs?

Both brand-name drugs and generic drugs are covered under this plan. A generic drug is approved by the FDA as having the same active ingredient(s) as the brand-name drug. Generally, generic drugs work just as well as and usually cost less than brand-name drugs. There are generic drug substitutes available for many brand-name drugs. Generic drugs usually can be substituted for the brand-name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand-name drugs.

For discussion of drug types, please see the *Evidence of Coverage,* **Chapter 3, Section 3.1,** "The 'Drug List' tells which Part D drugs are covered."

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** You or your prescriber is required to get prior authorization for certain drugs. This means that you will need to get approval from the plan before you fill your prescriptions. If you don't get approval, the drugs may not be covered. These drugs are noted with "PA" next to them in the formulary.
  Some drugs may be covered under Part B or under Part D, depending on your medical condition. Your prescriber will need to get a prior authorization for these drugs as well, so your pharmacy can process your prescription correctly.

- **Quantity Limits:** For certain drugs, the amount of the drug that will be covered by the plan is limited. The plan may limit how much of a drug you can get each time you fill your prescription. For example, if it is normally considered safe to take only one pill per day for a certain drug, we may limit coverage for your prescription to no more than one pill per day. These drugs are noted with "QL" next to them in the formulary.

- **Step Therapy:** In some cases, you are required to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B. These drugs are noted with "ST" next to them in the formulary.

This drug list was updated in August 2025.

You may be able to find out if your drug has any additional requirements or limits by looking in the drug list that begins on page 1. Note: This drug list includes all possible restrictions and limits on coverage. **The requirements and limits may not apply to your plan's specific coverage.** To confirm whether a particular drug is covered, visit us on the Web at **express-scripts.com** or contact Customer Service.

You can ask us to make an exception to these restrictions or limits. See the section "How do I request an exception to the formulary?" below for information about how to request an exception.

What if my drug is not listed on this formulary?

If your drug is not included in this list of covered drugs, you should first contact Customer Service and ask if your drug is covered.

If you learn that your drug is not covered, you have two options:

- You can ask our Customer Service department for a list of similar drugs that are covered. When you receive the list, show it to your prescriber and ask him or her to prescribe a similar drug that is covered.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

You should talk to your prescriber to decide if you should switch to an appropriate drug that the plan covers or request an exception so that the plan will cover the drug you are taking.

How do I request an exception to the formulary?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can request coverage of a drug that is not currently covered by this plan. If approved, the drug will be covered at a pre-determined cost-sharing level, and you will not be able to ask us to provide the drug at a lower cost-sharing level.

- You can ask us to cover a formulary drug at a lower cost-sharing level. If approved, this would lower the amount you must pay for your drug. In certain Express Scripts Medicare plans, you cannot ask us to change the cost-sharing tier for any drug in the specialty tier, if applicable.

- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Express Scripts Medicare limits the amount of the drug it will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

You should contact us to ask for an initial coverage decision for a formulary, tier or utilization restriction exception. **When you are requesting an exception, you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your prescriber believes that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your prescriber.

This drug list was updated in August 2025.

Generally, your request for an exception will only be approved if the alternative drugs that are covered, the lower-tiered drugs or the additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

How do I request an appeal?

If we make a coverage decision and you are not satisfied with this decision, you can "appeal" the decision. An appeal is a formal way of asking us to review and change a coverage decision we have made. To start an appeal, you, your prescriber or your representative must contact us.

When you make an appeal, we review the coverage decision we have made to check to see if we were following all of the rules properly. Your appeal is handled by different reviewers than those who made the original unfavorable decision. When we have completed the review, we give you our decision.

For more information about the appeals process, you may contact Customer Service using the information provided on the front and back covers of this document.

Can I get a temporary transition supply while I wait for an exception decision?

As a new or continuing member in our plan, you may be taking drugs that are not covered from one year to the next. Or, you may be taking a drug that is covered but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your prescriber to decide if you should switch to an appropriate drug that we cover or request an exception so that we will cover the drug you take. While you talk to your prescriber to determine the right course of action for you, or while you wait for a coverage decision from us, we may cover a temporary transition supply of your drug in certain cases during the first 90 days that you are enrolled in the plan or at the start of a new coverage year.

For each of your drugs that is not on our formulary, or if your ability to get drugs is limited, we will cover a temporary transition supply when you go to a network pharmacy. This temporary transition supply will be for a one-month supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum of a one-month supply of medication. After your first refill of a one-month supply, we will not pay for these drugs, even if you have been a plan member less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary, or if your ability to get your drug is limited but you are past the first 90 days of membership in our plan, we will cover a minimum of a 31-day emergency transition supply of that drug while you pursue an exception.

Other times when we will cover at least a temporary 30-day transition supply (or less, if you have a prescription written for fewer days) include:

- When you enter a long-term care facility
- When you leave a long-term care facility
- When you are discharged from a hospital
- When you leave a skilled nursing facility
- When you cancel hospice care
- When you are discharged from a psychiatric hospital with a medication regimen that is highly individualized

This drug list was updated in August 2025.

Express Scripts Medicare will send you a letter within 3 business days of your filling a temporary transition supply notifying you that this was a temporary supply and explaining your options.

Other coverage that your plan may provide

Your plan **may** also cover categories of "excluded" drugs that are not normally covered by a Medicare prescription drug plan and are not listed in the formulary. **Drugs in the following categories may be covered subject to the rules and limitations of your specific plan:**

- Prescription drugs when used for anorexia, weight loss or weight gain
- Prescription drugs when used to promote fertility
- Prescription drugs when used for cosmetic purposes or to promote hair growth
- Prescription drugs when used for the symptomatic relief of cough or colds
- Prescription vitamins and mineral products (except prenatal vitamins and fluoride preparations, which are considered Part D drugs)
- Drugs when used for the treatment of sexual or erectile dysfunction
- Over-the-counter (OTC) diabetic supplies
- Federal Legend Part B medications – for example, oral chemotherapy agents (e.g., TEMODAR®, XELODA®)
- Non-prescription drugs, also known as over-the-counter (OTC) drugs
- Outpatient drugs for which the manufacturer seeks to require that associated tests or monitoring services be purchased exclusively from the manufacturer as a condition of sale.

Please contact Customer Service for additional information about your plan's specific drug coverage and your cost-sharing amount. **Please note:** Costs for excluded drugs not normally covered by a Medicare prescription drug plan will not count toward your Medicare prescription drug yearly deductible (if applicable), total drug costs or yearly out-of-pocket expenses.

Formulary

The formulary that begins on page 1 provides coverage information about some of the drugs covered by this plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 137.

The "Drug Name" column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., CRESTOR®) and generic drugs are listed in lowercase italics (e.g., *atorvastatin*). The information in the "Requirements/Limits" column tells you if there are any special requirements for coverage of that particular drug.

If you are not sure whether your drug is covered, please visit our website or contact Customer Service using the information provided on the front and back covers of this formulary.

Your Costs

The amount you pay for a covered drug will depend on:

- **Your coverage stage.** Your plan has different stages of coverage. In each stage, the amount you pay for a drug may change. Please refer to your other plan documents for more information about your specific prescription drug benefit.

This drug list was updated in August 2025.

- **The drug tier for your drug.** Each covered drug is in one of four drug tiers. Each tier may have a different cost-sharing amount. The "Drug Tiers" chart below explains what types of drugs are included in each tier and shows how costs may change with each tier.

Your other plan materials have more information about your plan's coverage stages and list the specific cost-sharing amounts for each tier.

Drug Tiers

Tier	Includes	Helpful tips
Tier 1: **Generic Drugs**	This tier includes many commonly prescribed generic drugs and may include other low-cost drugs.	Use Tier 1 drugs for the lowest cost-sharing amount.
Tier 2: **Preferred Brand Drugs**	This tier includes preferred brand-name drugs as well as some generic drugs.	Drugs in this tier will generally have lower cost-sharing amounts than non-preferred drugs.
Tier 3: **Non-Preferred Drugs**	This tier includes non-preferred brand-name drugs as well as some generic drugs.	Many non-preferred drugs have lower-cost alternatives in Tiers 1 and 2. Ask your prescriber if switching to a lower-cost generic or preferred brand-name drug may be right for you.
Tier 4: **Specialty Tier Drugs**	This tier includes very high cost brand-name and generic drugs.	To learn more about medications in this tier, you may contact a pharmacist using the information provided on the front and back covers of this formulary.

If you qualify for Extra Help

If you qualify for Extra Help from Medicare to help pay for your prescription drugs, your cost-sharing amounts may be lower than your plan's standard benefit. Members who qualify for Extra Help will receive a notice called "Important Information for Those Who Receive Extra Help Paying for Their Prescription Drugs" ("Low Income Rider" or "LIS Rider"). Please read it to find out what your costs are. You can also contact Customer Service with any questions using the information listed on the front and back covers of this formulary.

For more information

For more detailed information about your Medicare prescription drug coverage and your plan's specific costs, please review your other plan materials.

If you need additional information on network pharmacies or if you have any other questions, please contact our Customer Service department using the information provided on the front and back covers of this formulary.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1.800.MEDICARE (1.800.633.4227), 24 hours a day, 7 days a week. TTY users should call 1.877.486.2048. Or visit https://www.medicare.gov.

This drug list was updated in August 2025.

Below is a list of abbreviations that may appear on the following pages in the "Requirements/Limits" column that tells you if there are any special requirements for coverage of your drug.

Note: The following drug list includes all possible restrictions and limitations. **Depending on your plan's specific benefit, you may not experience every restriction or limit indicated in the list.** To confirm your plan's specific coverage, contact Customer Service using the information provided on the front and back covers of this formulary or visit us on the Web at **express-scripts.com**.

List of abbreviations

LA: Limited Availability. This prescription drug may be available only at certain pharmacies. For more information, contact Customer Service using the information provided on the front and back covers of this formulary.

MO: Mail-Order Drug. This prescription drug is available through Express Scripts Pharmacy by Evernorth®, our home delivery service, as well as through select retail network pharmacies. It may also be available through other network pharmacies. Consider using our home delivery service for your long-term (maintenance) medications, such as high blood pressure medications. Retail network pharmacies may be more appropriate for short-term prescriptions, such as antibiotics.

PA: Prior Authorization. The plan requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescription. If you don't get approval, we may not cover this drug.

QL: Quantity Limit. For certain drugs, the plan limits the amount of the drug that we will cover.

ST: Step Therapy. In some cases, the plan requires you to first try a certain drug to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

V: This vaccine is provided to adults at no cost when used based on recommendations by the Centers for Disease Control and Prevention's (CDC) Advisory Committee on Immunization Practices (ACIP).
